"Plant a Garden

for Fun, Food and Flowers"

You Too Can Grow Flowers And Vegetables Like The Ones Pictured Above

ASK YOUR PARENTS' PERMISSION TO HAVE A GARDEN

A Garden All Your Own

Find a little space and have a garden this year. Be one of nearly a million boys and girls who will do this so their parents can have nice, fresh vegetables and plenty of flowers. Grow and give fresh vegetables to families too poor to buy their own. You will enjoy every minute of it. Plant a few packets of seed and watch them grow into big, healthy plants.

Take This Catalog Home

Take this catalog home, ask your parents' permission to have a garden and they will help you select the kinds of flowers and vegetables you would like to plant. If you have never had a garden, start with just a few packets. If you have had a garden before, you will wish to try some new kinds of seeds and plants. Each packet tells you how.

A Word to Parents

Encourage your boy or girl to have a garden. A tiny corner of the yard is room enough. A few packets of seed cost so little. Your children can grow choice vegetables for your table and thus help you meet the high cost of food problem. The quality of our seed is guaranteed. Complete gardening directions with each order.

How to Order

Write your name and address in ink, on the order blank in this catalog. Now fill in the number of packets of each kind you wish. Extend the prices, total the prices of all you have selected. Then take the order and the money to pay for it to your teacher. She will then send all orders from your room to us at one time. Seeds will be sent to your teacher.

Our Fifty-first Year

This is the fiftieth year we have been supplying guaranteed Seeds for Children's Home and School Gardens. They are used in big city, small town and rural schools. In some places big school gardens are conducted. In other places the small home gardens give just as much pleasure. Plant a garden this year.

THE CHILDREN'S FLOWER MISSION

School Garden Department of

THE TEMPLIN-BRADLEY CO.

5700 Detroit Avenue
